REQUEST FOR CORRECTED OFFICE ACTION

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

In an Office Action dated January 5, 2007, the Examiner raised a plurality of rejections for claims 1-23. However, claims 1-8, 21, and 22 were cancelled in the new application transmittal dated July 8, 2003. A copy of the transmittal is enclosed herewith. Also enclosed is a Restriction Requirement dated February 5, 2002 where the Examiner refers to patentably distinct inventions.

Applicants are unable to address at least some of the rejections because they incorrectly refer to cancelled claims. The Examiner is requested to issue a Corrected Office Action so that Applicants may properly respond.

If there are any questions regarding this request, such questions can be addressed by telephone to the undersigned.

Respectfully submitted,

STAAS & HALSEY LLP

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Claims 1-23 show 2 embodiments as illustrated in figures 11 and 15.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles E Parsons whose telephone number is 703-305-3862. The examiner can normally be reached on M-TH 7AM to 4:30PM Fri 7AM to 3:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on 703-305-4856. The fax phone numbers for the organization where this
